

# Frequently Asked Questions (FAQ)

1. **How long does it take to see results?**

Results can vary significantly based on individual health conditions and adherence to the protocol. Some users report improvements within a few days, while others may take several weeks.

2. **Are there any side effects?**

Generally, the product is well-tolerated. However, some users may experience mild side effects such as dizziness or stomach discomfort, particularly when starting the regimen.

3. **Can I take this with other medications?**

It is important to consult with your healthcare provider before combining this product with other medications, especially blood thinners or sedatives, as interactions are possible.

4. **How should I store the product?**

Store the product in a cool, dry place away from direct sunlight and moisture. Keep the container tightly sealed to maintain freshness.

5. **Is this product suitable for children?**

"This product is not intended for use in children. It is specifically formulated for adult health and safety concerns." Always use as directed.

6. **How long does the supply last?**

The duration of the supply depends on the dosage and frequency of use. Most users find that the supply lasts for approximately 30 days.

7. **Can I use this product during pregnancy?**

It is strongly advised to avoid this product during pregnancy and while breastfeeding due to potential risks to the fetus or infant.

8. **How do I know if I'm using it correctly?**

Refer to the user manual for detailed instructions on dosage and timing. Consistency is key to achieving the best results from the product.

9. **Narasimha Mantra PDF available for download?**

Yes, a PDF version of the Narasimha Mantra is available for download on our website. It is provided for personal use only.

10. **How can I contact customer support?**
